Backend

Nest.js - Symfony - Node.js - .NET - Fastify

Databases

MySQL - MongoDB

DevOps - Infrastructure

Docker - CircleCI

Education

Master of Science - Information Systems
Architect - ETNA - Ivry-sur-Seine
2022-2026

- Self-directed, project-based learning
- Hands-on, autonomous methodology focused on complex group projects, from design to deployment.

Work Experience

Full-Stack Developer (Lead Role) - Apprenticeship
CFP Group - Montrouge
March 2025 - Ongoing

- Lead/Mentored **4 developers** on the CFP 2.0 refactor: sprint **management**, code **reviews** (PRs), and technical lead. (Fastify, React, TypeScript)
- **Translating** business requirements into **functional** specifications and providing technical **guidance** to the team.
- Developed a **geolocation** solution for points of interest to **optimize** real estate **sales**. (Python, Fastify, TypeScript, MongoDB)

Full-Stack Developer - Apprenticeship
CFP Group - Montrouge
January 2024 - March 2025

- HR assessment **automation** (WTTJ / TestGorilla APIs): processed **5,400** applications and performed **29,000** automated actions, **saving** the equivalent of 2 HR full-time positions. (Symfony, PHP)
- CI **pipeline overhaul**: reduced integration time by **3x** and accelerated deployment frequency. (Circle CI)
- Backend CRM **refactor** (SDR): **centralized** lead **sources** via webhooks and optimized UTM tracking. (Symfony, PHP, React, TypeScript)
- Developed client **portals** (wealth management, investors) featuring integrated referral systems and **tracking** dashboards. (Symfony, PHP, React, TypeScript)

Full-Stack Developer .NET/Angular - Apprenticeship
WBconcept - Paris
April 2023 - January 2024

- Built an **automated** data ingestion **pipeline** for the e-commerce database, **aggregating** heterogeneous **sources** (APIs, CSV, XLS). (Node.js, JavaScript)
- Developed and maintained a web application for **end-to-end** transport equipment fleet management, with features designed to **optimize** employee tasks and **workflows**. (.NET, C#, Angular, TypeScript)

Key project

Final-year entrepreneurial project: NOTHERA
AI-powered note-taking application for therapists

- Audio transcription (Deepgram) and automated clinical note formatting (Sonar). (TypeScript, Next.js, Nest.js)
- External calendar integration for appointment management.
